- ✓ support the Youth City Council in launching eco-friendly projects for the city
- ✓ and any other action developed on your own initiative!

In addition the volunteer will participate in the organization of the Fête de l'Europe with the 8 other European volunteers hosted in Sarthe. Together, they can organize event in May within their structures.

CONTEXT

The volunteer will be hosted daily in the town hall of Rouillon, and more particularly in the animation youth department during the year 2021 but this project will be coordinated by the Maison de l'Europe, allowing the volunteer to participate more broadly in actions to promote European citizenship together with 8 other volunteers in which:

- 6 volunteers are hosted in local boarding schools,
- 1 volunteer is hosted in a high school,
- and 1 volunteer is hosted in the association Maison de l'Europe.

These 9 volunteers will be able to carry out common projects, especially during the Europe Day in May.

Welcoming a young person who knows the very innovative practices of certain European countries in order to implement them naturally on a daily basis, will be a real plus for the mission. We would have a lot to learn from this young person to "green" our practices. They could inspire our agents, our children, our citizens. For several years, the municipality has been investing for the environment in a transversal way in services, and this project would fully strengthen our investment.
