The foundation of Laurentius in Olsztyn was started in 2002. Diakonia Neuendettelsau wanted to share her experience in running nursing homes at a European level in Poland.

The first step was to educate professional staff. In September 2002, the Foundation opened the Laurentius School for Carers in Social Welfare Homes with the Geriatrics and Rehabilitation Specialization. The next stage of activities was the construction of a modern nursing home. In July 2005, the "Laurentius" Nursing Home and Social Welfare Home for the elderly was opened. In 2004, the Laurentius Foundation obtained the status of a public benefit organization.
